

Unnat Bharat Abhiyan:

ON-GOING PROJECT: Sustainable Development of Village Godumbre, Taluka: Maval, District: Pune

J.S.P.M.'s Jayawant Institute of Computer Applications has taken initiative for environmental protection on the River Pavana. Under this activity, village Godumbre has taken as a pilot project for environmental sustainable model village. After achieving model village projects, it will be replicated in other villages along the bank of Pavana River from origin of the river to Moraya Gosavi Temple at Chinchwadgaon. JSPM group has selected 1 Km. Stretch on the bank of Pavana river at Godumbre village, Taluka: Maval, District: Pune under the guidance of various experts, activists, government agencies and corporate companies. The project will be implemented Phase wise from the origin of river Pavana. 32 villages will be taken for replication of this pilot project for Sustainable Development and Environmental protection.

The activities like Cleaning of village, training villagers for zero garbage project for sustainable living, plastic free environment, processing of solid waste to manures, waste water disposal, minimization of chemical fertilizers and pesticides and promote organic fertilizer and bio pesticides, health check up camp, Dhobi Ghat construction, proper drainage system, use of taps for pipes for saving water, shifting of water pumping station upwards the river flow, tree plantation with local medicinal plants and other useful local plants, awareness and involvement of villagers for pollution free sustainable, environment friendly village development and education.
